

Virtual RBC type 17

large, elongated RBC

More present in disease (vs. normal)
More present in SF3B1-mutant (vs. w.t.)

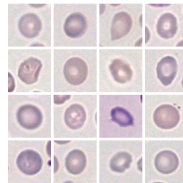

Virtual RBC type 50

large RBC +
echinocytes

More present in disease (vs. normal)
More present in SF3B1-mutant (vs. w.t.)

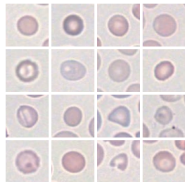

Virtual RBC type 1

large, elongated RBC +
some poikilocytes (dacrocytes)

More present in disease (vs. normal)

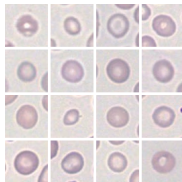

Virtual RBC type 24

small poikilocytes

More present in MDS(vs. anaemia)
More present in SF3B1-w.t. (vs. SF3B1-mutant)
More present in iron def. (vs. megaloblastic anaemia)

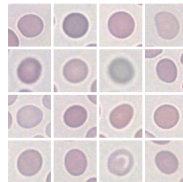

Virtual RBC type 45

regular RBC

More present in MDS (vs. anaemia)
More present in iron def.
(vs. megaloblastic anaemia)

Virtual RBC type 6

large RBC

More present in anaemia(vs. MDS)
More present in SF3B1-mutant (vs. w.t.)
More present in megaloblastic (vs. iron def.)
